Manager's Lowdown

Greetings YLN Members,

Happy Spring! Here are just a few updates on what's been happening at the Network.

The Cataloging position has been posted and we are currently receiving resumes. The job is "open until filled," so please put the word out to your library cataloging community. We're looking for an out-going, gregarious cataloger (that is not an oxymoron, I swear!) who has both a love of beautiful records and a penchant for networking and teaching. S/he can be found!

We're currently waiting for LYRASIS to make some fixes before our DPLA pilot project testing can continue. The next step will be that select patrons will be test-driving the SimplyE app and giving us feedback on their experience.

All our codes changes in Symphony have been completed. (YFL is now YCFLD, VBC is now BEA, DIAL is now TCP, and VER is now CVCL). Thanks to Chanel, this was a smooth process—all our codes now match our libraries and things should make a bit more sense.

Membership fee invoices went out this month. If you didn't receive yours or have questions, please let me know.

In other news, work on the Strategic Plan continues. SSL is proving to be a bit more difficult than expected, but we are committed to making it happen. And, we are working with Tech Logic to get ready for the AMH which is expected to be installed in June.

On a final note, the new batch of Stingrays use a different format which the current version of CircIT doesn't recognize. We'll be testing a new version of CircIT very soon and will roll it out as soon as we know it's working.

Don't forget to take a look at the Membership News page to see what's going on around the Network, and

please remember to send a representative to our user group meetings to both stay informed and let others know what's happening at your library.

I hope to see you all at the Chino Valley Public Library at one o'clock on April 26th for the quarterly Steering Committee meeting. Please let me know if you have anything to put on the agenda.

Until then, onward!

~ Judy

Prioritization

Priority One: Resolve Current Helpdesk Requests

A help desk request, or work order, is the submission of a problem that one encounters during the normal operation of a YLN service. Requests are generally submitted via e-mail to help@yln.info. If a request is submitted via telephone, then a YLN staff person will create the request for the submitter. Help desk requests will always be our highest priority because in some cases a member library employee cannot complete a work function until the issue is resolved.

Total requests submitted: 56

Total requests resolved: 52

Total unresolved requests opened this month: 4

Total requests still open: 26

Priority Two: TechLogic Contract and Purchase of AMH

Create new TechLogic contract and order an AMH for central sorting facility.

Goal: Create a contract for an RFID/AMH system.

Project Lead: Judy Poe

Progress:

- Review contract
- Negotiate CircIT unlimited site license
- Negotiate AMH service programs/preventative maintenance contract
- Work with County attorney to draft master contract
- Combine contracts into one master contract
- Have Executive Committee review contract
- Have Steering Committee approve contract
- Negotiate with TechLogic over final contract
- Upon contract approval by both parties, order AMH
- Install AMH
- Put AMH into production

Priority Three: YLN Strategic Plan

While the YLN has been very good about technology planning, the overall vision and strategy of the YLN has been more elusive. The Executive Committee has been working on developing a vision, mission, and strategic plan.

Goal: Develop a strategic plan that will bring the YLN to the year 2025.

Project Lead: Judy Poe

Progress:

- Review strategic plan
- Collect information from member libraries
- Incorporate feedback into the plan
- Get approval for the updated plan
- Change the bylaws if necessary
- Distribute the new plan

Priority Four: Implement BC Visibility

BlueCloud Visibility is a new product by SirsiDynix which converts our online catalog to a linked data model. This will make our records visible in search engines such as Google.

Goal: Implement BC Visibility

Project Lead: Chanel Wheeler

Progress:

- Receive a quote from SirsiDynix
- Get approval for the purchase
- Receive an implementation plan from SD
- Offload our bibliographic database to SD to be processed.
- Test the implementation.
- Go Live
- Advertise the new service

Note concerning prioritization: The priority of projects may shift as individual portions are completed.

Prioritization

Priority Five: Implement Blue Cloud Cataloging

Blue Cloud Cataloging will allow library staff to access Symphony cataloging from a web browser. The new product should have significant user interface improvements above the cataloging section in WorkFlows.

Goal: Fully implement Blue Cloud Cataloging (BCC)

Project Lead: Chanel Wheeler

- Upgrade Web Services so we can use BCC
- Configure Web Services for the new service
- Test BCC to see how it works
- Create documentation
- Activate it for a test library to see how it works in a production environment
- Conduct a training session for all YLN users
- Activate it for the remaining libraries

Completed Projects CY17

Cancelled/Postponed Projects CY17

Priority Six: Testing SimplyE

Partnering with the Digital Public Library of America (DPLA), the YLN will be testing SimplyE which allows patrons to view all our e-materials at one site.

Goal: Fully implement SimplyE at several pilot libraries

Project Lead: Chanel Wheeler

- Choose libraries to be the pilots
- Have pilot libraries test DPLA Exchange and SimplyE
- Give feedback to DPLA
- Roll out to all YLN libraries
